

**2004
SUMMER PROP INITIATIVE**

“Support the roof, rib, and brows”

“Best Practices”

- Examine the rib and roof for loose material.
- Scale or support all loose ribs, roof, and overhanging brows.
- Never travel under or along unsupported roof, brows, or loose ribs.

MSHA

**Helping you to work
more safely in the
mining industry.**

REMEMBER

**Safety and
Health are
Values!**
